

K-LOVE radio meets an essential need for me and my family by providing the only safe, every-age appropriate radio entertainment in our remote mountain area.

Were K-LOVE to be replaced by an LPFM broadcaster with other programming, there would be no Christian music in our valley, and no music to which parents could confidently allow their children access.

I believe it is in the public's best interest to provide rock music that is devoid of sexual innuendo and violent imagery; instead, delivering a message of hope and love.
